A man with a goatee and short grey hair, wearing a blue polo shirt and dark jeans, stands with his hands in his pockets. He is wearing a watch on his left wrist and a bracelet on his right. The background is composed of large, overlapping geometric shapes in shades of red, yellow, orange, and green.

**“I protect myself
by taking my
medication to
make sure I’m
undetectable.”**

Early HIV detection is the most important step in keeping you, and those you care about, safe. If you’re HIV positive, using treatment as prevention is a highly effective strategy to prevent the transmission of the virus. If you’re HIV negative, there are drugs like PrEP that can help keep you that way.

“Me protejo
**porque quiero
que mi pareja
sea feliz y este
saludable.**”

La detección temprana del VIH es el paso más importante para mantenerte a ti y a tus seres queridos sanos y seguros. Si tu estatus de VIH es positivo, usar el tratamiento como método de prevención es una estrategia efectiva para evitar la transmisión del virus. Si tu estatus es negativo, hay medicamentos como PrEP que pueden ayudarte a protegerte.

Hazte la prueba. Conoce tu estatus.
Aprende cual es el próximo paso.
